Student Satisfaction Survey Report

Academic Year 2021-2022

Student satisfaction survey for the year 2021-2022 was conducted in the institution and collected the data manually. The following is the analysis of the responses received from the students which helps to improve the quality in teaching, learning and evaluation. For this purpose, a questionnaire was given to One Hundred and Forty students of all Programs and Courses from 1st, 2nd and 3rd years which comprises of 20 questions and the students were encouraged to answer the questions on a 4-point rating scale ranging from 0 to 4 where 0 stands for poor, 1 for average, 2 for good, 3 for very good and 4 for excellent.

According to the Survey, Maximum number of students affirmed that the teachers are excellent in covering the syllabus about 97% effectively and create interest among the students while teaching in the classroom and encouraging the students to participate in field visits and invited lectures and are encouraging to give seminars and to participate in extra-curricular activities.

More than 95% of the students opined that the teachers are excellent in clarity of expression, the depth of the subject content, latest developments in the subject, use of class seminars and participative learning, encouraging to question and clearing their doubts, use of teaching aids, supervision of the projects, encourage to use Library and internet, conducting exams and valuing answer scripts, punctuality and regularity to class and carrier guidance and personal care as excellent.

Similarly, 98% of students are happy with the clarity of expression of the teacher, the depth of the subject, participative learning and use of teaching aids, seriousness and regularity in valuing answer scripts, remedial coaching, personal care and affection of the students as very good.

Majority of the students feel that maximum number of teachers uses ICT tools to enhance the teaching learning process and the teaching-learning modules as very good.

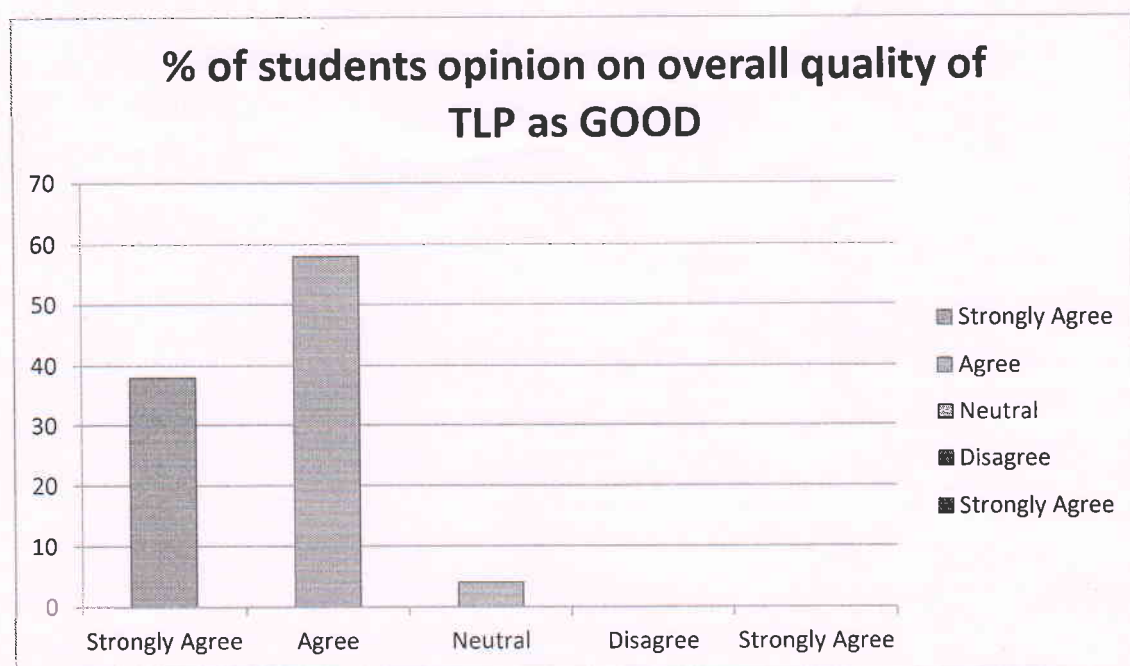

A few students opinioned that the coverage of the syllabus, use of teaching aids, encouragement for study projects, clarity of expression and depth of content, accessibility of the teacher outside the class room, regularity and punctuality to class, personal care and affection towards students as good.

A very few students replied that the coverage of the syllabus , encouraging questions in the class rooms, guiding the students to give class seminars and participation in extra-curricular activities, personal care and helping the individual students as average.

On the Whole, almost all the students are satisfied with the mode of Teaching and Learning process in the College.

A large number of students agree that the college provides them with a platform to grow while learning. Maximum students feel that their learning is moderately enhanced by the use of student-centric approaches and that they are usually made aware of the competencies across the country. Most of the students feel that the teachers make effort in inculcating skills and try to make them job ready globally.

According to the Survey, about **74%** of the students expressed the overall opinion on the teaching-learning process as **Excellent** and **56.5 %** of the students opined as **Very Good** and only **8.4%** of students felt that the overall opinion on a lecturer as **Good**. Only very few students **1.1%** are felt as poor. Finally, the suggestions & the observations of the students have been recorded for future analysis for giving quality education.
